

SAFETY DATA SHEET

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Preparation Date: 01/01/2019

Revision Date: N/A

Revision Number: N/A

1. Identification

Product identifier	
Product code:	C2870
Product Name:	Chloroform, Reagent, ACS, stabilized
<u>Other means of identification</u> Synonyms:	CHLOROFORME (French) CHLOROFORMO (TRICLOROMETANO) (Spanish) FORMYL TRICHLORIDE METHANE TRICHLORIDE METHANE, TRICHLORO- METHENYL CHLORIDE METHENYL TRICHLORIDE METHYL TRICHLORIDE TRICHLOROFORM
CAS #: RTECS # CI#: Recommended use of the chem	TRICHLOROMETHANE 67-66-3 FS9100000 Not available
Recommended use: Uses advised against	Solvent. Chemical intermediate. No information available
Supplier:	Dawn Scientific Inc 121 Liberty Street, Metuchen, NJ, 08840 Tel : 732-902-6300 Fax : 973-802-1005 sales@dawnscientific.com www.dawnscientific.com
Emergency telephone number	Chemtrec 1-800-424-9300

2. HAZARDS IDENTIFICATION

Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Considered a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Acute toxicity - Oral	Category 4
Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2A
Carcinogenicity	Category 2
Reproductive toxicity	Category 2
Specific target organ toxicity (single exposure)	Category 3

Specific target organ toxicity (repeated exposure)

Category 2

Label elements

Warning

Hazard statements

Harmful if swallowed Causes skin irritation Causes serious eye irritation Suspected of causing cancer Suspected of damaging fertility or the unborn child May cause respiratory irritation. May cause drowsiness or dizziness May cause damage to organs through prolonged or repeated exposure

<u>Hazards not otherwise classified (HNOC)</u> Not Applicable

<u>Other hazards</u> Harmful to aquatic life

Precautionary Statements - Prevention

Obtain special instructions before use Do not handle until all safety precautions have been read and understood Wash face, hands and any exposed skin thoroughly after handling Wear protective gloves/protective clothing/eye protection/face protection Do not eat, drink or smoke when using this product Wear eye/face protection Do not breathe dust/fume/gas/mist/vapors/spray Use only outdoors or in a well-ventilated area

Precautionary Statements - Response

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF ON SKIN: Wash with plenty of water If skin irritation occurs: Get medical advice/attention Take off contaminated clothing and wash it before reuse IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell Rinse mouth

Precautionary Statements - Storage

Store locked up Store in a well-ventilated place. Keep container tightly closed

Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant

3. (OMPOSITION/INFORMATION ON INGREDIEN	TS
------	-------------------------------------	----

		-
Component	CAS No	Weight-%
	^ · · · · · · · · · · · · · · · · · · ·	

Chloroform	67-66-3	99-99.5
Ethyl Alcohol 200 proof	64-17-5	0.5-1

	4. FIRST AID MEASURES
First aid measures	
General Advice:	National Capital Poison Center in the United States can provide assistance if you have a poison emergency and need to talk to a poison specialist. Call 1-800-222-1222. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.
Skin Contact:	Wash off immediately with soap and plenty of water removing all contaminated clothing and shoes. Get medical attention. If skin irritation persists, call a physician.
Eye Contact:	Flush eyes with water for 15 minutes. Get medical attention. If symptoms persist, call a physician.
Inhalation:	Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.
Ingestion:	Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Obtain medical attention.
Most important symptoms	and effects, both acute and delayed
Symptoms	Causes serious eye irritation Moderate eye irritation Causes skin irritation Moderate skin irritation Irritating to respiratory system Central nervous system effects Drowsiness Dizziness Ataxia Fatigue Headache Narcosis May cause cardiovascular effects May affect respiration Nausea Vomiting It may affect the kidneys May affect the kidneys May affect the liver May cause digestive (gastrointestinal) tract irritation
Indication of any immediate	a modical attention and special treatment needed

Indication of any immediate medical attention and special treatment needed

Notes to Physician:

Treat symptomatically.

Protection of first-aiders

First-Aid Providers: Avoid exposure to blood or body fluids. Wear gloves and other necessary protective clothing. Dispose of contaminated clothing and equipment as bio-hazardous waste.

5. FIRE-FIGHTING MEASURES

Extinguishing Media Suitable Extinguishing Media:

The product is not flammable. If it is involved in a fire, extinguish the fire using an agent suitable for the type of surrounding fire.

Unsuitable Extinguishing Media:	No information available.
Specific hazards arising from the chemical	
Hazardous combustion products	Chloroform does not burn, but may decompose upon heating to produce the following if involved in a fire: carbon monoxide, carbon dioxide, hydrogen chloride and chlorine.
Specific hazards	No information available.
Special Protective Actions for Firefighters	
Specific Methods:	No information available
Special Protective Equipment for Firefighters:	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Methods for cleaning up	Use appropriate tools to put the spilled material in a suitable chemical waste disposal container. Clean contaminated surface thoroughly.	
Methods for containment	Stop leak if you can do it without risk. Absorb spill with inert material (e.g. vermiculite, dry sand or earth).	
Methods and material for containment and cleaning up		
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers, basements or confined areas.	
Personal Precautions:	Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Use personal protective equipment. Avoid contact with skin, eyes and clothing. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.	

7. HANDLING AND STORAGE

Precautions for safe handling

Technical Measures/Precautions:

Provide sufficient air exchange and/or exhaust in work rooms. Keep away from incompatible materials.

Safe Handling Advice

Wear personal protective equipment. Avoid contact with skin, eyes and clothing. Do not breathe vapors or spray mist. Do not ingest. Handle in accordance with good industrial hygiene and safety practice.

Conditions for safe storage, including any incompatibilities

Technical Measures/Storage Conditions:

Keep container tightly closed in a dry and well-ventilated place. Store at room temperature in the original container. Protect from light. Sensitive to light. Store in light-resistant containers. Store in a segregated and approved area. Store away from incompatible materials.

Incompatible Materials:

Oxidizing agents

Acids Alkalis Aluminum Potassium t-butoxide Alkali Metals Lithium Sodium Potassium Alkaline Earth metals Magnesium sulfate Chloroform reacts violently with or may explode if it comes in contact with the following: Perchloric acid + Methanol; Sodium + Methanol; Sodium methylate + Methanol; Sodium hydroxide + Methanol; Acetone; Carbon tetrachloride; disilane; Nitrogen tetroxide; Sodium methylate; Sodium-Potassium alloy; Triisopropyl phosphine; 2-Nitrophenylacetyl chloride; Perchloric acid + Phosphorus pentoxide

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

National occupational exposure limits

		1880 mg/m ³ TWA	1900 mg/m ³ TWA

Appropriate engineering controls

Engineering measures to reduce exposure:

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors and mist below their respective threshold limit value.

Individual protection measures, such as personal protective equipment

Personal Protective Equipment

Eye protection: Goggles

Skin and body protection:	Chemical resistant apron Long sleeved clothing Gloves
Respiratory protection:	Vapor respirator. Be sure to use an approved/certified respirator or equivalent.
Hygiene measures:	Avoid contact with skin, eyes and clothing. When using, do not eat, drink or smoke. Wash hands and face before breaks and immediately after handling the product

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid

Odor: Pleasant. Etheric. Non-irritating.

Molecular/Formula weight (g/mole): Flammability (solid, gas) 119.38

Flash Point Tested according to: Not applicable

Upper Explosion Limit (%): No information available

Boiling point/range(°C/°F): 61-62 °C/141.8-143.6 °F

Specific gravity: 1.484 @ 20 °C 1.476-1.488 @ 25 °C

Evaporation rate: 11.6 (butyl acetate =1)

Odor threshold (ppm): 85

Miscibility:

Miscible with Carbon disulfide Miscible with Carbon tetrachloride Miscible with Benzene Miscible with alcohol Miscible with Acetone Miscible with Petroleum Ether Miscible with many organic solvents Miscible with Ether

Appearance: No information available.

Taste Sweet.

no data available

Autoignition Temperature (°C/°F): No information available

Melting point/range(°C/°F): -64 to -63 °C/-83.26-81.4 °F

Bulk density: No information available

pН No information available

Vapor density: 4.12-4.36

Partition coefficient (n-octanol/water): $\log Kow = 1.97$

Solubility:

Slightly soluble in water Soluble in Ether Soluble in Benzene Soluble in hot alcohol Soluble in Acetone Soluble in Carbon tetrachloride Soluble in organic solvents Soluble in Petroleum Ether Soluble in Carbon Disulfide

Color: No information available.

Formula CHCI3

Flashpoint (°C/°F): No information available

Lower Explosion Limit (%): No information available

Decomposition temperature(°C/°F): No information available

Density (g/cm3): 1.48-1.49

Vapor pressure @ 20°C (kPa): 21.2-21.3 @ 20 deg. C 26.3 @ 25 deg. C.

VOC content (g/L): No information available

Viscosity: No information available

10. STABILITY AND REACTIVITY

Reactivity

Reactive with oxidizing agents Reactive with acids Reactive with alkalis Reacts with alkali metals Reacts with alkaline earth metals Chloroform reacts violently with or may explode if it comes in contact with the following: Perchloric acid + Methanol; Sodium + Methanol; Sodium methylate + Methanol; Sodium hydroxide + Methanol; Acetone; Carbon tetrachloride; disilane; Nitrogen tetroxide; Sodium methylate; Sodium-Potassium alloy; Triisopropyl phosphine; 2-Nitrophenylacetyl chloride; Perchloric acid + Phosphorus pentoxide

Chemical stability						
Stability:	Stable under recommended storage conditions.					
Possibility of Hazardous Reactions	: Hazardous polymerization does not occur					
Conditions to avoid:	Heat. Exposure to light. Incompatible materials.					
Incompatible Materials:	Oxidizing agents Acids Alkalis Aluminum Potassium t-butoxide Alkali Metals Lithium Sodium Potassium Alkaline Earth metals Magnesium sulfate Chloroform reacts violently with or may explode if it comes in contact with the following: Perchloric acid + Methanol; Sodium + Methanol; Sodium methylate + Methanol; Sodium hydroxide + Methanol; Acetone; Carbon tetrachloride; disilane; Nitrogen tetroxide; Sodium methylate; Sodium-Potassium alloy; Triisopropyl phosphine; 2-Nitrophenylacetyl chloride; Perchloric acid + Phosphorus pentoxide					
Hazardous decomposition products:	Hydrogen chloride gas. Chlorine. Carbon dioxide. Carbon monoxide.					
Other Information Corrosivity:	No information available					

Special Remarks on Corrosivity: No information available

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Principal Routes of Exposure: Inhalation. Ingestion.

Acute Toxicity

Symptoms

Skin Contact:	Causes skin irritation. Mildly to highly irritating. It may be absorbed through the skin.
Eye Contact:	Causes eye irritation. Moderately irritating to the eyes. Causes conjunctivitis. May cause reversible eye damage.
Inhalation	Irritating to respiratory system. May cause nausea, vomiting. May cause salivation. May cause dry mouth, thirst. May cause dizziness and headache. Inhalation of

	high concentrations of vapor may cause anesthetic effects. May affect behavior/central nervous system (excitaton, followed by central nervous system depression, nervousness, irritability, halucinations, delirum, euphoria, apathy, ataxia, loss of judgement, disorientaton, inebriation, fatigue, lassitude, mental dullness, weakness, narcosis, fainting sensation, unconciousness (anesthesia), coma). It may affect the cardiovascular system (hypotension, cardiac arrhythmias, cardiac arrest). May affect respiration (respiratory depression). May affect respiration (anoxia, increase in rate and depth of respiration). May cause anorexia. It may affect the liver. May affect the kidneys. May produce a sensation of bodily warmth. May cause pupilary dilation with decreased reaction to light.
Ingestion	Harmful if swallowed. Causes digestive (gastrointestinal) tract irritation. It causes irritation or a burning sensation of the mouth and throat. May affect urinary system (kidneys). May affect liver. It may affect the blood (leukocytosis, fall in the plamsa prothrombin level and an increase in time for the blood to clot).
Aspiration hazard	No information available.
Delayed and immediate effects	as well as chronic effects from short and long-term exposure
Chronic Toxicity	Prolonged or repeated inhalation may cause peumoconiosis. Prolonged or repeated inhalation may cause dry mouth, thirst, gastroenteritis, nausea, vomiting, diarrhea, loss of appetite or anorexia, weight loss. Prolonged or repeated inhalation may affect behavior/central nervous system (headache, hallucinations, ataxia, loss of reflexes, psychotic behavior, dysarthria (motor speech disorder)), and cause degenerative changes of the brain. Prolonged or repeated inhalation may affect the liver. Prolonged or repeated inhalation may affect the liver. Prolonged or repeated inhalation may affect the liver, and kidneys. Prolonged or repeated ingestion may affect the liver, and kidneys. Prolonged or repeated ingestion may cause loss of appetite. Prolonged or repeated inhalation may cause weight loss. Prolonged or repeated skin contact may cause dermatitis and defatting, dryness, and cracking of the skin. Prolonged or repeated inhalation may affect the blood (change in clotting factors). Prolonged or repeated inhalation may affect the spleen. Prolonged or repeated inhalation may cause ketosis (ketone bodies formed in the blood when liver glycogen stores are depleted).
Sensitization:	No information available.
Mutagenic Effects:	May affect genetic material Mutations in microorganisms Experiments with bacteria and/or yeast have shown mutagenic effects Mutagenic effects in mammalian somatic cells Animal experiments showed mutagenic effects
Carcinogenic effects:	May cause cancer based on animal test data. Limited evidence of a carcinogenic

genic effects:	May cause cancer based on animal test data. Limited evidence of a carcinogenic
	effect. Possibly carcinogenic to humans.
